

Macalister Demonstration Farm, Dairy Australia, Extension Project

Projects on the farm are funded by Dairy Australia, the Gardiner Foundation, Sustainability Victoria, DPI VIC, Department of Agriculture Food and Fisheries, with support provided by GippsDairy.

Macalister Demonstration Farm Update 339 (Week ending Mar 8, 2013)

The Macalister Demonstration Farm is milking 280 cows grazing 71 hectares, a stocking rate of 3.9 cows per hectare. The daily allocation is one 30th of the grazing area and the actual grazing rest time is 26 days.

Compared to the previous week, milk production per cow is up from 1.42 to 1.51 kg milk solids (MS) per cow per day. Litres per cow per day are up from 17.6 to 18.7. Milk fat test has fallen from 4.66% to 4.65% (fat yield is up from 0.82 to 0.87 kg per cow per day). Milk protein test is the same at 3.40% (protein yield is up from 0.60 to 0.64 kg per cow per day). This time last year, milk production was 20.2 litres, 1.63 kg MS, 0.89 kg fat, and 0.74 kg protein per cow per day.

The daily pasture consumption from the grazing area is up from 36 to 37 kg dry matter at (DM) per hectare per day. The pasture consumption per cow is up from 9.0 to 9.3 kg DM per cow per day. This time last year, pasture consumption was 38 kg DM per hectare per day, and 9.7 kg DM per cow per day.

4.0 mm of irrigation water, 0.8 kg of nitrogen element, and \$0.19 of pasture renovation, all per hectare per day, have contributed to the current pasture consumption. The daily spend on these pasture inputs totals \$4.14 per hectare per day. Based on those cash inputs only, the consumed pasture price is estimated to be \$113 per tonne of dry matter.

Supplementary feed includes 5.3 kg DM per cow of a complete pellet containing minerals and Rumensin, at a price of \$397 per DM tonne, and 0.9 kg DM of the farm's own silage.

The Bulk Milk Cell Count for the week was 154,000, up from 152,000. This time last year the BMCC was 149,000.

The milk price (less compulsory levies) the MDF anticipates receiving for the week's milk is \$4.78 per kg milk solids, or 38.5 cents per litre. This time last year it was \$5.33 and 43.1 cents.

Milk income per cow per day is up from \$6.53 to \$7.21, made up of \$2.73 for the fat (up from \$2.47), \$4.97 for the protein (up from \$4.51), and minus \$0.49 for the litres. This time last year milk income per cow per day was \$8.69.

Feed cost per cow per day (including pasture and supplements) are up from \$3.27 to \$3.30 per cow per day, leaving a Margin over All Feed (MOAF) per cow of \$3.91, up from \$3.26. This time last year the feed margin per cow was \$5.96. The margin over all feed per hectare is \$15.40 (last year \$23.34). The whole farm feed margin is \$1,093, up from \$912 per day. This time last year the whole farm feed margin was \$1,657 per day.
